"En-Visage a journey through broken faces"

Speaker   : Dr Yeshaswini T
            Consultant Oral & Maxillofacial Surgeon

The face, the most conspicuous part of the human body. When the facial form is disrupted, it can endanger life, compromise function, and create a noticeable deformity that can be challenging to overcome. The considerations and challenges involved in restoring the Visage are varied.

Please join to get an insight into the nitty-gritties of restoring broken faces.

Faculties and residents of all the departments are invited to attend this academic session.
